

Kashmira Sachin Mali – IAM Analyst
Binghamton, NY | (607) 313-0478 | kashmiramali4@gmail.com

EDUCATION

PhD in Business Administration and Management – Cyber Technology Management | 2026 – 2029
Campbellsville University
Research focus: Behavioral and organizational factors in IAM governance and User Access Review compliance

Master of Science in Computer Science | 2021–2023
Binghamton University, Thomas J. Watson College of Engineering, SUNY

Bachelor of Engineering in Computer Engineering | 2015–2019
MKSSS Cummins College of Engineering for Women, Pune

TECHNICAL SKILLS

Identity and Access Management: Okta, SailPointIIQ, User Provisioning De-provisioning, SSO, MFA, OAuth, SAML, Password Management, Entitlement Management and risk labeling, Access Control, Security Policies, Incident Investigation and Remediation, Audit and Compliance, RBAC, Active Directory, EntraID- Microsoft Azure AD, Security Risk Management, Identity verification and adjudication
Cloud & Tools: Postman, Jira, ServiceNow, MS Office (O365), Confluence, Sharepoint
Certifications : SailPoint Identity Security Leader, CyberArk Certified Trustee, Cisco - Intro to Cyber Security, SSGI Project Management, CITI Program – SBE Comprehensive

PROFESSIONAL EXPERIENCE

KR3 Information Systems

Jersey City, NJ

IAM Analyst

August 2024 – March 2026

- Assisted in managing the team tasked with delivering identity and access management services, coordinating 50+ application owners and resource owners to execute UAR campaigns and access certification programs across enterprise systems.
- Assisted in defining IAM project requirements for process, workflow, and report definitions in SailPointIIQ, supporting smooth application onboarding and consistent identity lifecycle management across 10+ enterprise applications.
- Developed and maintained documentation, subject training materials, and knowledge content on entitlement management processes, including policies, standards, and procedures for identity lifecycle operations, improving team efficiency by 20%.
- Supported identity adjudication activities by evaluating entitlement risk labels across multiple applications, analyzing compliance obligations and access definitions, and taking appropriate action to certify or revoke access based on established guidelines and controls, reducing over-privileged access risk by 35%.
- Conducted access verification and certification reviews for privileged and standard user accounts, confirming access status and proceeding or ending certification workflows based on verification outcomes, achieving 100% on-time compliance with zero audit findings.
- Collaborated with HR, IT, and Compliance teams to identify emerging identity requirements, implement security controls, and ensure access decisions aligned with SOX and PCI regulatory requirements, supporting 100% SLA adherence.
- Provided guidance and mentoring to junior team members on IAM processes, entitlement management standards, and best practices, supporting successful delivery of team-wide identity governance initiatives.

Binghamton University*Systems Intern*

Binghamton, NY

September 2023 – January 2024

- Wrote Ansible scripts to automate secure SSH key management, enabling passwordless authentication for team members across designated testing servers.
- Authored user guides and knowledge base articles on SSH key configuration, reducing help desk ticket volume by 30% and improving user satisfaction scores by 15%.
- Supported provisioning and de-provisioning workflows in a sandbox environment, gaining hands-on exposure to identity lifecycle management concepts.
- Performed end-to-end user provisioning and de-provisioning, including account creation, entitlement granting, and access revocation, reducing provisioning time by 20% with 100% accuracy.
- Resolved 90% of end-user access incidents within SLA using ServiceNow ticketing system, improving customer satisfaction scores by 15%.
- Authored and maintained user/admin guides and knowledge base articles, reducing ticket volume by 30% and improving self-service support capabilities.
- Developed and maintained business and technical documentation, improving support efficiency and user experience by 20%.

Binghamton University*Student Manager*

Binghamton, NY

September 2021 – May 2023

- Supervised and coordinated a team of 35 students and Sodexo staff across daily dining operations, managing shift scheduling, attendance compliance, and performance standards in a fast-paced, high-volume environment.
- Served as the primary point of contact for team escalations, resolving operational issues in real time and maintaining service quality and labor efficiency during peak hours and large-scale dining events.
- Onboarded and trained new team members on operational procedures and service standards, reducing ramp-up time and ensuring consistent performance across shifts.
- Monitored inventory levels and coordinated replenishment planning to prevent stockouts and minimize waste while maintaining cost efficiency.

Simeio*Senior Identity and Access Management Analyst*

Mumbai, India

August 2019 – August 2021

- Delivered IAM security services for a healthcare client, ensuring 100% confidentiality, integrity, and availability of sensitive patient and clinical data in a HIPAA-regulated environment.
- Managed 5,000+ user accounts in Okta including access role assignments, password resets, MFA enforcement, and access governance, increasing operational efficiency by 20%.
- Ensured adherence to ITIL methodologies, reviewing and resolving security-related access incidents and change requests via ServiceNow, maintaining 98% SLA compliance across incident, change, and problem management.
- Collaborated with cross-functional teams to design and optimize access management processes and security controls, improving access efficiency by 30%.
- Served as informal mentor to new team members, offering on-the-job training and guidance on IAM tools, security procedures, and best practices, reducing onboarding time.
